

Bogoliubov Laboratory of Theoretical Physics,
3 October. The jubilee seminar dedicated
to the 50th anniversary of the Laboratory

Dubna, 21 August – 1 September. Participants of the international school
«Dense Matter in Heavy-Ion Collisions and Astrophysics» (DM'2006)

Bogoliubov Laboratory of Theoretical Physics, 3–12 September.
Participants of the International School on Modern Mathematical Physics

Bogoliubov Laboratory of Theoretical Physics, 13 June. International conference «Nuclear Structure and Related Topics»

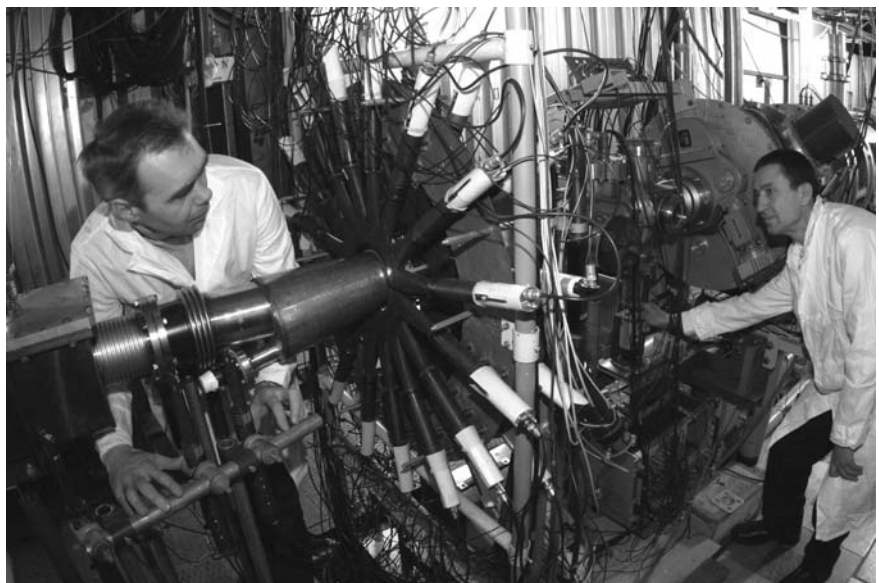

Bogoliubov Laboratory of Theoretical Physics, 24 November. A seminar to mark the 80th anniversary of Abdus Salam's birth

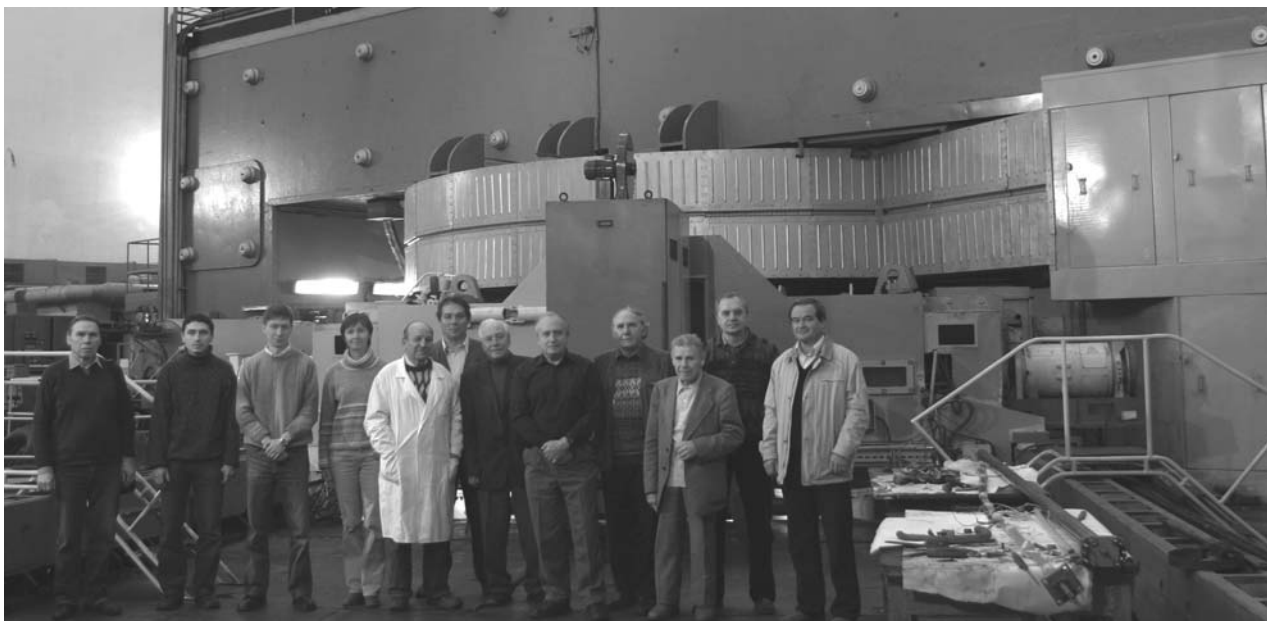

Bogoliubov Laboratory of Theoretical
Physics, 25–30 September.
XVIII Baldin international seminar
on problems in high energy physics
«Relativistic Nuclear Physics
and Quantum Chromodynamics»

Veksler and Baldin Laboratory of High Energies, January.
Adjustment of the detector for an experiment to discover
the parametric relativistic nuclei X-rays in a crystal

Dzhelepov Laboratory of Nuclear Problems.
Participants of the recovery of the synchrotron

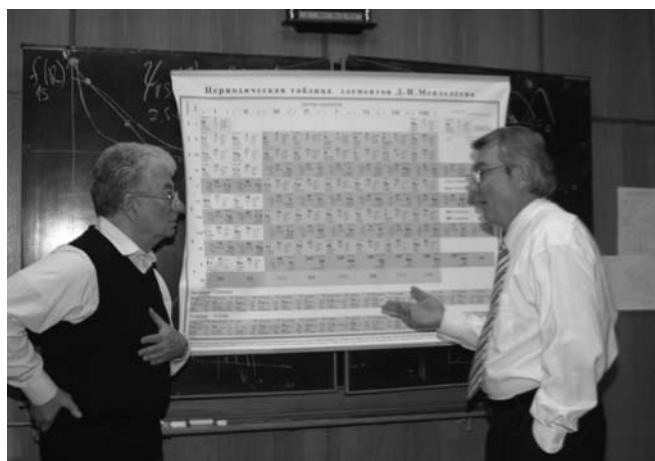

Dubna, 29 December.
A ceremony to unveil a memorial plaque to A. Tyapkin
on the wall of building 113, DLNP (now a building
of the Laboratory of Radiation Biology)

Dzhelepov Laboratory of Nuclear Problems, 20 September. Participants of the International Meeting of the NEMO-3 Collaboration

Flerov Laboratory of Nuclear Reactions, May.
Participants of the experiment on the synthesis
of element 112 Yu. Oganessian and S. Dmitriev (top photo);
S. Shishkin, G. Vostokin (FLNR) and their colleagues
from Switzerland R. Eichler, R. Dressler
and D. Pige (P. Scherrer Institute, Villigen)

Hanty-Mansiysk, 17–22 July. The International Symposium on Exotic Nuclei (EXON-2006)

Flerov Laboratory of Nuclear Reactions, 6 February. Japanese physicists from KEK visiting JINR

Flerov Laboratory of Nuclear Reactions, 6 December. The delegation from the Republic of Serbia on an excursion around the Laboratory

Flerov Laboratory of Nuclear Reactions, 28 September. Ambassador Extraordinary and Plenipotentiary of the Republic of India in Russia Mr K. Sibal (second from left) is introduced to the research topics of the Laboratory

Frank Laboratory of Neutron Physics, 18 December. The decommissioned IBR-2 reactor. The reactor personnel, present and ex-staff members of FLNP, who operated IBR-2 are in the reactor control hall

Dubna, 14 November. Participants of the session of the Programme Advisory Committee for Nuclear Physics at the IREN facility

Frank Laboratory of Neutron Physics. Staff involved in mounting of fuel elements for the IBR-2 reactor core

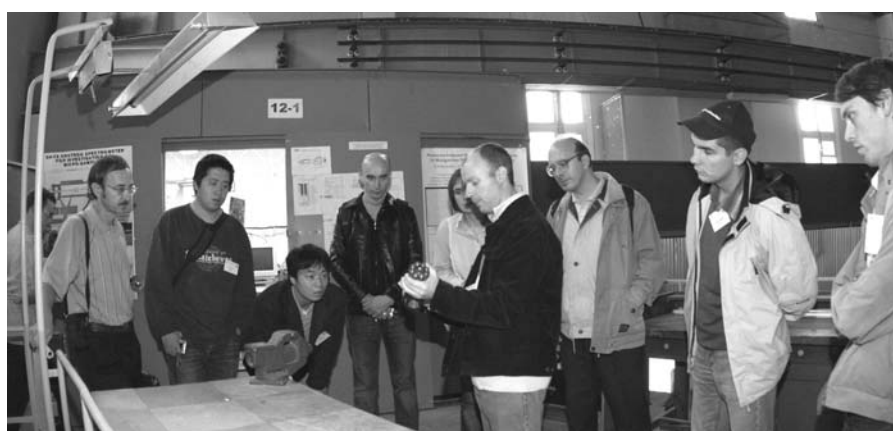

Frank Laboratory of Neutron Physics. Work on IBR-30 dismantling is completed

Dubna, 5–7 October. The International Workshop on Small-Angle Neutron Scattering dedicated to the 70th anniversary of Yu. Ostanevich's birth

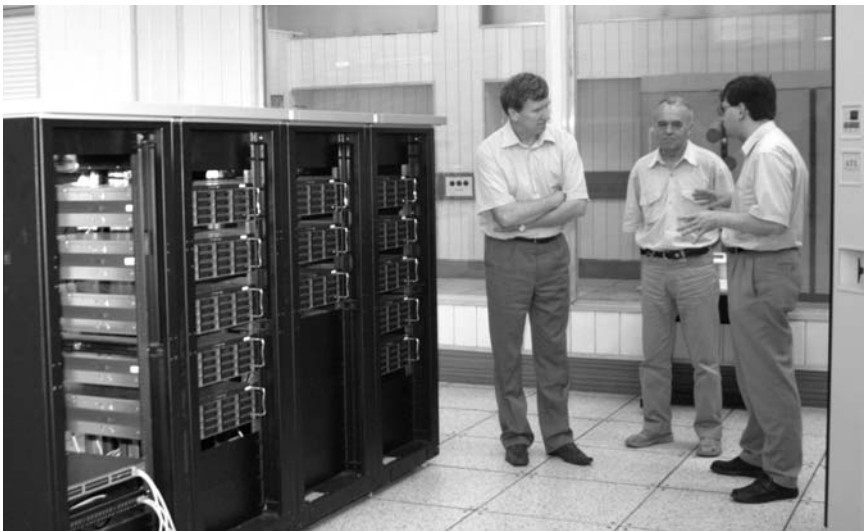

Frank Laboratory of Neutron Physics, 1 October. Participants of the international workshop «Crystallography at High Pressures»

Dubna, 24 May. Participants of XIV International Seminar on Interaction of Neutrons with Nuclei (ISINN-14)

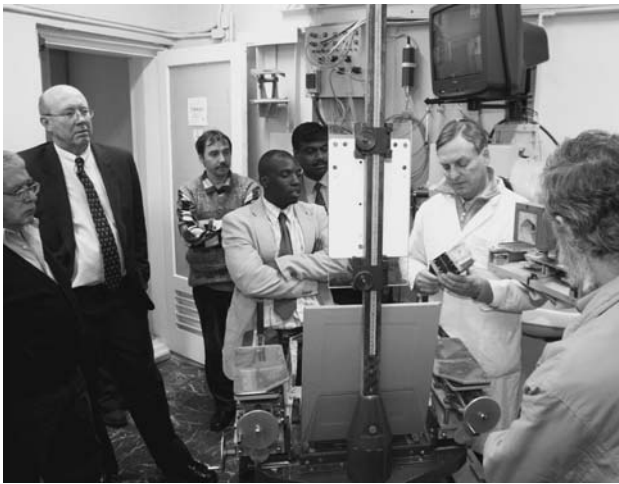

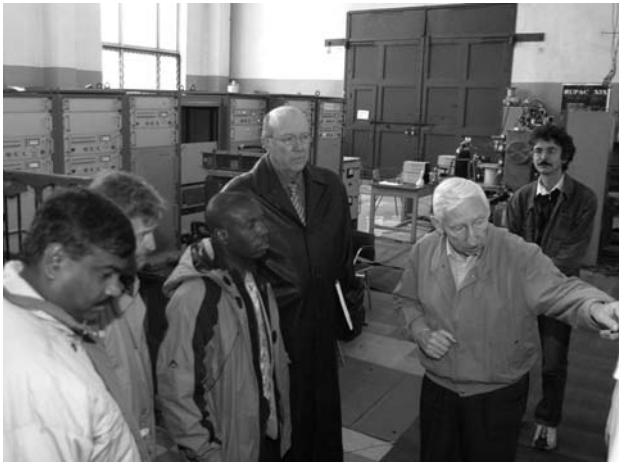

Laboratory of Information Technologies, 26 June.
Participants of the second international conference
«Distributed Computing and Grid Technologies
in Science and Education»

High Tatras Mountains (Slovakia), 28 August – 1 September.
International conference «Mathematical Modeling and Computational Physics»

Dubna, 17–18 October.
The government delegation of the Republic of South Africa at JINR.
Visits to the Institute laboratories

Dubna, SRINP MSU, 6–11 February.
Participants of the 10th Conference of Young Scientists and Specialists dedicated to the 50th anniversary of the Institute

Dubna, 15 December.
Awarding the 2006 Bogoliubov Prize
for young scientists to the French physicist
Aurélien Barrau

JINR University Centre, 3 July. The Third International Summer Student Practice in JINR Fields of Research
